Saunak Sutradhar

Software Engineer @Ascendion | Java | Spring Boot | Agentic AI |
RAG | Azure | DevOps
Bengaluru, Karnataka, India

Summary

Software Engineer with nearly 2 years of experience building intelligent automation solutions and enterprise applications.

Currently working on Agentic AI initiatives for a Fortune 500 enterprise client, designing and configuring AI agent workflows that integrate Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Knowledge Bases, Jira, and GitHub Enterprise to automate defect triage, code remediation, repository analysis, and software delivery processes.

Skilled in Agentic AI, AI Agents, RAG, Prompt Engineering, Workflow Automation, Java, Spring Boot, Python, SQL, Azure, Docker, Terraform, and DevOps practices. Passionate about building scalable software systems and AI-powered solutions that improve engineering productivity and accelerate software development workflows.
